

VEGRA Quality Management

Since February 2004 we introduced our own VEGRA Quality Management with the following logo:

The VEGRA Quality Management is especially adjusted to the structure and size of our company as well as to our production processes following the requirements of the previous standard DIN EN ISO 9001:1994 as well as the current standard 9001:2000.

It is our duty and aim to meet all requirements of our customers by offering high-quality products and first-class service.

If you should have any further questions to this regard please contact our Quality Manager Dr. Norbert Janietz:
