

Cleaner for Gravure Cylinders E 1056

Description:

Cleaner for Gravure Cylinders E 1056 is best suited for cleaning of the cells of rotogravure forme cylinders. Removes ink residues (also UV and conventional offset inks), coatings and residues of paper dust and paper fibres.

Application:

Apply **Cleaner for Gravure Cylinders E 1056** undiluted onto the screen roller and clean the cells.

If the impurities are very tenacious, please repeat the cleaning process.

After the cleaning process, the screen rollers guarantee an even and troublefree ink application.

Properties:

Due to its neutral pH value, **Cleaner for Gravure Cylinders E 1056** does not attack the materials used in screen rollers.

Recommended Protective Measures: please see Material Safety Data Sheet

Packing:

Carton with 12 bottles of 1 l

Cans of 10 l and 25 l

The specifications given in this brochure are based on laboratory tests and practical experience. All specifications are to the best of our knowledge and reflect the latest state of the art, however, this does not imply any liability.
